Below is a School Checklist Table. In the table you will write the requirements for your schools and your own requirements to gauge how you match up with your schools. Remember, it is always alright to change your school choice. You may start off having a goal school you realize you don't like or you may have a reach school that you realize is actually better to be in the goal category, so it is normal to switch your schools around. You got this! As always, let us know if you have questions 786-220-1776.
